

Cubetape

THE WORLD'S MOST TRUSTED MOBILE DIMENSIONER

Let's Show You the Power of Cubetape

Why a Tape Measure is Not Enough

#1 Limited Accuracy

Lack of precision causes additional costs and hinders space utilization.

#2 Human Error

Measurement inaccuracies lead to discrepancies between carriers and shippers.

#3 Measuring Uglies

Inability to measure large awkward freight, causing costly inaccuracies.

Discover the Power of Mobile Dimensioning with Cubetape

Cubetape empowers warehouse managers, shippers and carriers to accurately measure any sized freight, from anywhere in the warehouse, sending data directly to existing systems.

Introducing the C200s

For Revenue Protection and Masterdata Applications

3m, 5m, 7.5m tape

8 hour battery

2 hour
recharge

-30c - +70c working temp

Suits standard and
large SKU types

Capture metrics in
5 seconds

Why Customers Choose Cubetape

Protect Revenue

Capture accurate dimensions for optimal revenue on every shipment.

Remove Manual Errors

Send dimension data from Cubetape to existing systems with no manual intervention.

Easy to Use

Intuitive and familiar user experience that can be mastered in 30 seconds or less.

Ergonomically Designed for Precision and Accuracy

Tape measure vs. Cubetape

		
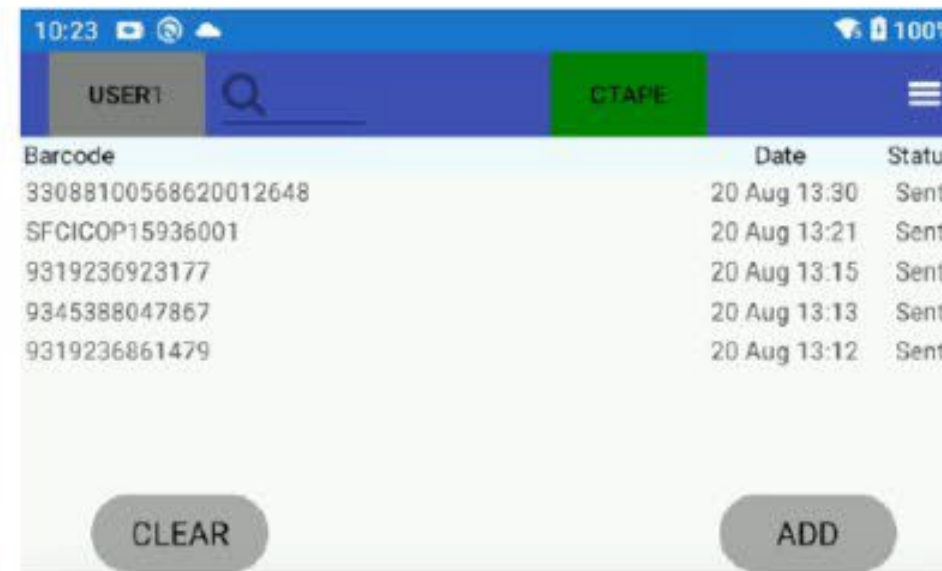

Accuracy	✗ Human errors in reading measurements.	✓ Precision to 2mm/2/10th's of an inch.
Data Management	✗ Manual entry required.	✓ Automatically records measurements.
Integration	✗ Cannot integrate with software.	✓ Ability to integrate with existing systems.
Real Time Insights	✗ Must wait for data to be manually entered.	✓ Captures and sends data via bluetooth.
